Early Years Book Review

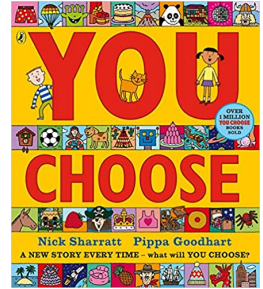

Mrs Lovett recommends... **You Choose** by Pippa Goodhart and Nick Sharratt

This book is all about using your own imagination rather telling a story.

It is full of bright and exciting illustrations that encourage you to think and make decisions. My favourite page is 'What home would you choose?'

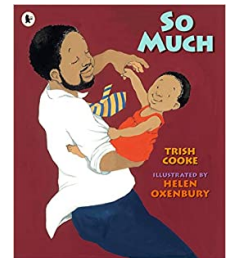

I would choose a castle.

Mrs Charles recommends... **So Much** by Trish Cooke

This book is all about everyone in a family and how they show the baby love.

This was my son's favourite book because he thought I was just like Aunty Biba.

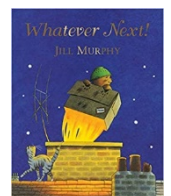

Mrs McLaughlin recommends... **We're Going on a Hunt** by Michael Rosen

I remember this story being read to me as a child and I have enjoyed reading it to my children. I love the repetitive text, that has a lyrical charm. It is perfect for reading aloud to children. Children in school love joining in with the actions and words and are always excited when the bear finally appears!

Mrs Sikora recommends **'Whatever Next'** by Jill Murphy

This picture story book is an enchanting story about Baby Bear who, with his friend Ted, a cardboard box, some wellingtons, a colander and a picnic, goes on a fantastic adventure to the moon and back home all before bath time. Whatever Next! On his way he also meets a new friend, Owl. The pictures in the book bring the story to life and offer lots of opportunities to talk about and engage with the story. After reading 'Whatever Next', I like to pretend that I am going to go to the moon and plan my trip just like Baby Bear. Maybe you could do that too.
