Head Teacher: Mr John Norton

Dear Parent / Carer

We are delighted to announce that we will be using Google Classroom to help us increase our home learning offer. This is in addition to the other services we already provide including online learning platforms such as Doodle and the weekly homework grids through our website.

Your child has been set up on Google Classroom and is ready to log in for the first time. Their username and password is the same one that they use to log into Bug Club and Doodle. The only difference is that they will need to place @alexandra.hounslow.sch.uk after their username in order to log into Google.

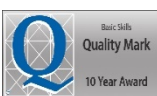

Example;

anexample125.313@alexandra.hounslow.sch.uk

You can access Google Classroom by going to **classroom.google.com** and log in using the username and password information detailed above.

Once on this page, you can use your child's username and password as normal.

(Without the @alexandra.hounslow.sch.uk)

Please enter your USO username and password, then click the Login button.

Username (e.g. jsmith 123)
Password

Login

If you are using a public or shared computer, please ensure that you log out and close all browser tabs so the next user is unable to access your account.
Note for system administrators: do not enable any browser features that re-open recently-viewed web pages at startup.

If your child does not know their log in details, then please ask them to speak to their teacher in the first instance. If your child's class is already at home, then please contact the school office to obtain log in information.

Important! Please ensure you are not already logged into Google with another account.

We hope by introducing this service we are able to further support your child's education whether at home or at school.

Yours Sincerely,

APS
